## French 2, Semester A

### Course Overview

Learning a language is a multi-faceted experience in which you are introduced to a whole new set of words and ways of expressing yourself with words, along with new cultures formed by people who have been speaking that language for centuries. The French-speaking world spans France, Monaco, and parts of Belgium, Switzerland, and Luxembourg in Europe, as well as parts of the United States, Canada, and various African countries, all with varied ethnic and political histories and cultures.

In French 2A, you'll be reintroduced to French in common situations, beginning with describing classes, school friends, teachers, and school supplies. You'll discuss different styles of dressing, housing and neighborhoods, and learn about relationships between family members and friends, students and teachers, and employees and employer. You'll also describe daily personal routines and schedules, household chores and family responsibilities. Finally, you'll discuss different types of cuisine, dining establishments and dining etiquette. You'll build on what you learned in the French 1B course to communicate by listening, speaking, reading, and writing in French as you internalize new vocabulary and grammar. You'll also learn about some regions of the French-speaking world where the central characters of each unit are visiting. You will build on this semester's work as you advance in your French studies: everything that you learn about a language and the cultures in which it is spoken will serve as a foundation for further learning.

### Course Goals

By the end of this course, you will be able to do the following:

- Use subject pronouns such as **je, tu, il/elle, nous, vous, and ils/elles** in speech and writing.
- Use interrogative words and question formation, including tag questions, negation, and inversion (formal and informal).
- Use time order words and phrases such as **la semaine dernière, l'été dernier, hier soir, avant-hier**, etc.
- Use superlatives and comparatives such as **plus/moins...que, le/la plus, le/la moins, le/la meilleur(e)/mieux, le/la pire**, etc.
- Express likes and dislikes using verbs such as **aimer, adorer, préférer, détester, admirer, apprécier, and hair**.

- Correctly use the **complement d'objet** direct in both present and **passé composé**.
- Use words related to the descriptive past such as **souvent, de temps en temps, toujours, jamais, plusieurs fois** (frequently, often, once in a while, many times, always, never).
- Differentiate between **savoir** (knowing how to or facts) and **connaître** (knowing someone or being familiar with something).
- Use correct verbs to form idioms/idiomatic expressions: **Avoir** as it relates to idioms (**avoir envie de, avoir l'intention de** etc.).
- Use verbs and phrases such as **vouloir - que voudriez-vous?/je veux; prendre - que prenez-vous?/je vais prendre;** and **coûter - combien coûte** to order food.
- Soften commands using the present subjunctive.

## Language Skills

French 1B is a prerequisite course for French 2A. The following fundamental concepts and skills will be helpful.

- a basic knowledge of parts of speech, such as noun, verb, subject, adjective, and adverb
- the ability to read and speak English and compose paragraphs or lines of dialogue that form a coherent whole
- a basic understanding of world geography

## General Skills

To participate in this course, you should be able to do the following activities:

- Work with word processing software such as Microsoft Word or Google Docs.
- Work with presentation software such as Microsoft Power Point.
- Do online research using various search engines and library databases.
- Communicate through email and participate in discussion boards.

*For a complete list of general skills that are required for participation in online courses, refer to the Prerequisites section of the Plato Student Orientation document.*

## Credit Value

French 2A is a 0.5-credit course.

## Tips for Language Learning

- Relax and enjoy yourself: To continue learning a new language, you will build on what you have already learned and incorporate new vocabulary and grammar concepts with the old, increasing your ability to communicate by listening, speaking, reading, and writing as you progress. To foster your progress, concentrate on communicating, not on using a new language beyond your current abilities. You will make errors, so look for improvement in your ability to communicate rather than perfect replication of the language you are learning.
- Immerse yourself in the language as much as you can. Replay audio, especially extended audio passages, to gain familiarity with the sound and meanings of the language. Look for opportunities to learn songs and watch multimedia content in the language.
- Use the mobile games that are packaged with this course to increase your fluency and comprehension of the language.
- Take advantage of and create additional opportunities besides those offered in the course to communicate in the language in everyday situations.
  - Use the audio recorder device provided with this course package (or any other recording device installed on your PC) to practice speaking, and play back your recordings to check for vocabulary and grammar usage and clarity of pronunciation (not perfection).
  - Practice reading the language aloud.
  - Use the discussion forums provided to practice communicating in written form with other learners.
  - Look for online language practice chat forums and real-life situations in which you can use the language, at whichever level you are comfortable with.
- Use the opportunities offered in the course to compare your responses with the sample answers provided in written form or as audio files. Your responses need not be exactly the same as the sample answers; rather, you should check for correctness of vocabulary, grammar, and pronunciation. If you're in doubt, you may consult your teacher (or anyone else you know who is proficient in French).
- Learn the language in the context of the words and the situations in which they are used, instead of learning by a process of translation between French and English.

## Mobile Games for Language Learning

Each lesson in this language course includes a game that is available on mobile devices and is designed to help you practice your listening and comprehension skills, whether you're in class or on the go.

Each game is based on one of these three game engines.

- **Word Swat.** You will see a question prompt, and then answer options will start to float from the top of the screen to the bottom. You must tap the correct option before it hits the bottom of the screen. This game is intended to reinforce grammar and vocabulary.
- **Stop that Snake.** You will hear or see a question or a prompt and fill in the blank boxes by typing on a QWERTY keypad within a specified time limit. This game helps you work on vocabulary and grammatical concepts.
- **Word Pop.** You will hear a series of words forming a sentence. Then floating bubbles will appear on screen, each with a word or phrase in it. You must tap to pop the bubbles that contain words that were part of the sentence you heard. For each correct bubble that is tapped, you gain points. You lose points for each incorrect bubble you tap. This is a fast-paced game that helps you focus on your listening skills and comprehension.

To gain access to the language games, you will need to use one of the following types of devices:

Apple iPads, iPhones, or iPod Touch devices using iOS 4 or later, tablets or phones running the Android OS v2.3 or later.

Here are the steps and requirements for getting to the games:

**For IOS devices:** Visit the [Apple Mobile App store](#) in iTunes or on your device. Find the Plato World Languages Games app that matches your language and semester. Download the app, launch it, and use your PLE credentials to log in.

**For Android devices:** Visit [Google PLAY](#) on your PC or device. Find the Plato World Languages Games app that matches your language and semester. Download the app, launch it, and use your PLE credentials to log in.

The first time you launch the installed app for a certain semester on a certain mobile device, you must establish that you are a Plato customer and are part of a district or school with licenses for the semester of languages at hand. To do this, you will enter your normal PLE login credentials, including *Account Login*, *Plato Name*, and *Password*. Then you will be able to open and play games directly on a designated device for one semester's worth of games. This access will last for one year from the date of authentication. If you continue to be a PLE user and your school continues to license the language courses, you can re-authenticate to unlock the games for an additional year.

## Course Materials

- Notebook

- Presentation software
- Computer with Internet connection and speakers or headphones
- Recording device on your computer for practicing and for teacher-submitted audio tasks
- Microsoft Word or equivalent
- Microsoft Excel or equivalent

## Course Pacing Guide
