

Spanish 1, Semester A

Course Overview

Learning a language is a multi-faceted experience in which you are introduced to a whole new set of words and ways of expressing yourself with words, along with new cultures formed by people who have been speaking that language for centuries. The Spanish-speaking world is vast and rich, spanning Spain in the Iberian Peninsula and many parts of North, Central, and South America, all with varied ethnic and political histories and cultures.

In Spanish 1A, you'll be introduced to several common situations in which people communicate, such as exchanging names and greetings, describing people by physical and personality traits, and describing family members and aspects of your social life. You'll start with basic sentence structures and grammatical tools, and you'll learn to communicate by listening, speaking, reading, and writing in Spanish as you internalize new vocabulary and grammar. You'll also learn about some regions of the Spanish-speaking world that the central characters of each unit are visiting. You will build on this semester's work as you advance in your Spanish studies: everything that you learn about a language and the cultures in which it is spoken will serve as a foundation for further learning.

Course Goals

By the end of this course, you will be able to do the following:

- Use subject pronouns and match them with conjugated verb forms; use adjectives and articles and match them (by gender and number) with nouns.
- Construct and comprehend, orally and in writing, sentences in Spanish in the present tense with a variety of regular and irregular verbs.
- Know when to use the verbs **estar** or **ser** (to be), **conocer** or **saber** (to know) in several situations.
- Ask and answer questions about people's names (using the reflexive verb **llamarse**) and national origins, and to discuss dates and time of day.
- Count and recognize the numbers in Spanish up to 1,000.
- Use verbs like **gustar**, **encantar**, and **disgustar** to express likes and dislikes.
- Make comparisons and express agreement and disagreement.

Language Skills

Spanish 1A is a beginning class that does not have specific prerequisites. Nevertheless, you should have the following basic skills:

- a basic knowledge of parts of speech, such as noun, verb, subject, adjective, and adverb
- the ability to read and speak English and compose paragraphs or lines of dialogue that form a coherent whole
- a basic understanding of world geography

General Skills

To participate in this course, you should be able to do the following:

- Work with word processing software, such as Microsoft Word or Google Docs.
- Work with presentation software, such as Microsoft Power Point.
- Do online research using various search engines and library databases.
- Communicate through email and participate in discussion boards.

For a complete list of general skills that are required for participation in online courses, refer to the Prerequisites section of the Edmentum Student Orientation document.

Credit Value

Spanish 1A is a 0.5-credit course.

Tips for Language Learning

- Relax and enjoy yourself: To learn a new language, you have to start at the beginning. Most of the knowledge you've accumulated to date will not help you master the new challenges you face. You will make errors, so look for improvement in your ability to communicate rather than perfect replication of the language you are learning.
- Immerse yourself in the language as much as you can. Replay audio, especially extended audio passages, to gain familiarity with the sound and meanings of the language. Look for opportunities to learn songs and watch media content in the language.
- Use the mobile games that are packaged with this course to increase your fluency and comprehension of the new language.
- Take advantage of and create additional opportunities besides those offered in the course to communicate in the language in everyday situations.

- Use the audio recorder device provided with the course package (or any other recording device installed in your PC) to practice speaking, and play back your recordings to check for vocabulary and grammar usage and clarity of pronunciation (not perfection).
- Practice reading the language aloud.
- Use the discussion forums provided to practice communicating in written form with other learners.
- Look for online language practice chat forums and real-life situations in which you can use the language, at whatever level you are comfortable with.
- Use the opportunities offered in the course to compare your responses with the sample answers provided in written form or as audio files. Your responses need not be exactly the same as sample answers; rather you should check for correctness of vocabulary, grammar, and pronunciation. If you're in doubt, you can consult your teacher (or anyone else you know who is proficient in Spanish).
- Learn the language in the context of the words and the situations in which they are used, instead of learning by a process of translating between Spanish and English.

Mobile Games for Language Learning

Each lesson in this language course includes a game that is available on mobile devices and is designed to help you practice your listening and comprehension skills, whether you're in class or on the go.

Each game is based on one of these four game “engines”.

- **Rapid Fire:** You hear words or phrases read in a certain sequence and tap the images that represent the words or phrases, repeating the same pattern. This game is a fast-paced vocabulary builder and has a head-to-head multi-player option.
- **This or That:** You hear a series of words or phrases, one at a time, and tap one of two pictures to place each word or phrase in its proper category, like food or drink, or true or false. This is a fast-paced game that helps you think about vocabulary and phrases and has a head-to-head multi-player option.
- **What's My Line:** You hear a group of phrases or sentences and drag the speech bubble for each phrase or sentence onto the picture that best illustrates that phrase. This game helps you practice distinguishing between related vocabulary items and has a head-to-head multi-player option.
- **Phrase Builder:** You build a sentence from words or short groups of words. You listen to the sentence, drag the speech bubbles to recreate the sentence, and then submit it for scoring. This game helps you think about the formation of sentences in the language and only plays in solo mode.

To gain access to the language games, you will need to use one of the following types of devices:

Apple iPads, iPhones, or iPod Touch devices using iOS 4 or later, tablets or phones running the Android OS v2.3 or later.

Here are the steps and requirements for getting to the games:

For IOS devices: Visit the [Apple Mobile App store](#) in iTunes or on your device. Find the Edmentum World Languages Games app that matches your language and semester. Download the app, launch it, and use your PLE credentials to log in.

For Android devices: Visit [Google PLAY](#) on your PC or device. Find the Edmentum World Languages Games app that matches your language and semester. Download the app, launch it, and use your PLE credentials to log in.

The first time you launch the installed app for a certain semester on a certain mobile device, you must establish that you are an Edmentum customer and are part of a district or school with licenses for the semester of languages at hand. To do this, you will enter your normal PLE login credentials, including *Account Login*, *Edmentum Name*, and *Password*. Then you will be able to open and play games directly on a designated device for one semester's worth of games. This access will last for one year from the date of authentication. If you continue to be a PLE user and your school continues to license the language courses, you can re-authenticate to unlock the games for an additional year.

Course Materials

- Notebook
- Presentation software
- Computer with Internet connection and speakers or headphones
- Recording device on your computer for practicing and for teacher-submitted audio tasks
- Microsoft Word or equivalent
- Microsoft Excel or equivalent

Course Pacing Guide

This course description and pacing guide is intended to help you keep on schedule with your work. Note that your course instructor may modify the schedule to meet the specific needs of your class.

Unit 1: Introductions

Summary

In this unit, you will be introduced to the Spanish language. First, you'll learn some common ways of greeting people in Spanish. Then, you'll learn how to ask for and share basic personal information, including the spelling of names and phone numbers. Next, you'll ask and respond to questions about people's nationalities. Finally, you'll ask and answer questions about dates and times and express information about people's age and birth dates.

Day	Activity/Objective	Type
